Address: Persiaran Puchong Jaya Selatan, Bandar Puchong Jaya, 47100 Puchong, Selangor

ABOUT ME

I am currently a student actively **seeking an internship in the backend development field** from **February to May (3 months).** I have solid coding skills and the ability to independently handle full stack projects. I can pick up a skill in a short period of time, and I can also quickly resolve difficulties and requirements that come my way. I am looking forward to using these strengths in a team environment and making a meaningful contribution to the team.

SKILLS

Backend: Java (Intermediate), MySQL (Intermediate), Android Studio (Basic), Java Framework (Basic) - Spring, Spring MVC, MyBatis, Spring Boot, Spring Security

Frontend: HTML,CSS,Javascript, React.js, jQuery,Ajax, Axios, XML

Tools   : Git, IDEA, Postman, VS Code, Linux

Concept : REST API Design, SOLID Design Principles, Common Design Pattern

PROJECT EXPERIENCES

MyBlog (Personal)
- Front-end and back-end separation architecture based on React.js and Springboot.
- Utilize Spring Security and JWT implement User Authentication.
- Interacting with a MySQL database using MyBatis ORM.
- Interacting with a Back-end using Ajax/Axios.

Java-based Tanks Battle Game (Personal)
- Learn about threads and implement separate threads for players and robots, allowing multiple robots to move independently.
- Learn about I/O streams to implement progress saving when exiting the game.

Chat System (Personal)
- Having a server-side and a client-side, using Sockets for network connection and data exchange.
- When multiple users request the server, the client establishes separate threads for each user to ensure connections.
- Transmit files using streams approach

EDUCATION

New Era University College   **Sept 2022 - Sept 2024**

Diploma in Computer Science
GPA: 3.90
CGPA: 3.75
Courses: Java, Android, Database, Data structures and Algorithms, Operating Systems, Network security
